

**Write the Project** Follow the sketch in Figure 3.11 to create the form. Figure 3.12 shows the completed form.

- Set the properties of each of the objects, as you have planned.
- Write the code. Working from the pseudocode, write each event procedure.
- When you complete the code, use a variety of test data to thoroughly test the project. Test with nonnumeric data and blank entries.

### The Project Coding Solution

```
'Project:      Ch03HandsOn
'Date:         June 2010
'Programmer:   Bradley/Millspaugh
'Description:  This project inputs sales information for books.
               It calculates the extended price and discount for
               a sale and maintains summary information for all
               sales.
               Uses variables, constants, calculations, error
               handling, and a message box to the user.
