5e

Assignment: Unit 1 Homework

17. Calculate the indicated sum using movements on a number line.

$$(+6) + (-4)$$

Plot the sum  $(+6) + (-4)$ .

18. Calculate the indicated sum using movements on a number line.

$$(-135) + (+129)$$

$$(-135) + (+129) = \square \text{ (Type an integer or a decimal.)}$$

19. Rewrite the following subtraction problem as an addition problem and then find the answer.

$$(+20) - (-4)$$

$$(+20) - (-4) = \square \text{ (Type an integer or a decimal.)}$$

20. Rewrite the following subtraction problem as an addition problem and then find the answer.

$$(+9) - (+18)$$

$$(+9) - (+18) = \square \text{ (Type an integer or a decimal.)}$$

21. Rewrite the following subtraction problem as an addition problem and then find the answer.

$$(-24) - (+33)$$

$$(-24) - (+33) = \square \text{ (Type an integer or a decimal.)}$$

22. Subtract the following.

$$(+17) - (-11)$$

$$(+17) - (-11) = \square$$
